

DIR Simplicity. **Superior** Service.

A Multi-Faceted Approach to the Execution of Technology

CTS provides a comprehensive DIR CARE Program to assist DIR customers in the execution of technology programs from strategy development through procurement, fulfillment and deployment.

CTS brings technology partners like AirWatch by VMware, Apple, Centrify, PROMISE Technologies, and Lenovo to state and local agencies under DIR to enable best practices and ease of execution. The CTS DIR Program principles are:

Services

- ✓ **Monthly reporting** of all provided CTS technology
- ✓ **Quarterly updates** with case studies, new technology releases, and partner product profiles
- ✓ **Continuous care** with service and partner programs
- ✓ **Customer-specific** programs
